

DOLLAR STORE CLOTHESPIN STAR ORNAMENT CRAFT

Using simple supplies from the Dollar Store, create these quick and easy Christmas Star Ornaments in just about 30 minutes.

Materials:

- Clothespins, Wooden Spring-Style – Dollar Store
- Acrylic Craft Paint – Light Yellow
- Pom Poms, Gold Tinsel – Dollar Store
- Craft Felt – Light Yellow
- Natural Jute Twine – Dollar Store
- Glue Gun and Glue Sticks
- Marker
- Paintbrush
- Scissors

Instructions:

STEP ONE

Gather all supplies. Remove the metal spring from the wooden clothespins. Line up five clothespins in a V shape on your work surface, to create a star shape. Attach the wooden clothespin pieces together with a glue gun and glue sticks, using the photo as a template.

TIP: You can use liquid craft glue for this project, but you will have to wait for it to dry.

STEP TWO

Paint the front and all sides of the clothespin star with light yellow acrylic craft paint. Set aside to dry.

STEP THREE

Place star onto light yellow craft felt and trace the outline with a marker. Carefully cut out star from felt, cutting inside the traced lines for a clean, finished project. Trace each star separately because the shapes will vary slightly. Glue felt to the back of the star ornament.

STEP FOUR

Attach a variety of gold tinsel pom poms into the center of each star with a glue gun and glue sticks.

STEP FIVE

To finish the Clothespin Christmas Star craft, cut a 24" length of natural jute twine, tie it in a 6" loop with a knot, and finish with a bow.

Attach the loop and bow to the top of the back of the clothespin star ornament with a glue gun and glue sticks.

Create Clothespin Stars for a Christmas place card, gift tag, or garland. They are the perfect size for a tiered tray decoration.
